

LEADPRO 24|7

Automated Lead Distribution, Tracking & Management Software Solution

LeadPro24|7 is an affordable, web-based, lead tracking and management solution designed for small and medium sized businesses.

Our software automatically captures and distributes your leads, allowing you to increase productivity, maximize your marketing investments and greatly increase your lead to sales conversion rates.

Easy to use and simple to understand. Yet detailed enough to be configured for any business. Provides extensive real-time reporting to help you fully leverage your investment.

Fully Integrated Web based Software

LeadPro 24|7 combines a Lead Management solution with Drip Email Marketing and online Survey functionality, which allows you to avoid using multiple vendors, redundant systems and data assimilation pain. Used together, this serves as a robust platform that not only captures, distributes and tracks your sales leads but allows you to follow up on every lead, nurture lead through your sales process with email and solicit / receive feedback from prospect and clients to streamline your marketing messages.

How it all Works...

LeadPro24|7 captures the leads from all your marketing sources (websites, email, manual entry, lead providers and/or lead generation systems), scrubs and validates the data then immediately routes to your sales team based upon your assignment rules.

The system includes extensive Real Time Lead Alerts that transmits your lead via email, mobile devices, fax and/or text messaging (SMS) helping to ensure that no lead is missed!

Once that lead is in your agents hands they have the ability to status the lead, document their activity, maintain client notes and set task lists for future action. They can continue to cultivate the lead through automated emails and solicit feedback at anytime through satisfaction surveys.

LeadPro 24|7's robust reporting tool provides you with a real-time snapshot of your pipeline enabling you to drill down to the smallest of details, allowing you to be more efficient with your time and marketing spend. Generate reports directly in the system or easily download your data to create your own.

Try it for Yourself!
